

Persecution Project
Active Compassion for the Persecuted

The troubled nation of Sudan has reached its breaking point.

The collapse of the Islamist regime has coincided with a sharp rise in levels of targeted terror and persecution against Christians by forces of radical Islam.

Tens of thousands lost their lives and more than 7.7 million people lost their homes in 2023— among which 450,000 believers escaped Khartoum and fled south to the safe haven of the Nuba mountains.

But in the midst of chaos and turmoil, God continued to work through His people to provide hope and redemption.

Sudanese believers demonstrated a level of courage that the world could not ignore. We recently shared a story broadcast on German television featuring the story of Pastor Musa who led nearly 2,000 women, children and elderly out of the fires of Khartoum to safety.

We are so proud to walk in fellowship with Musa and other Nuba Christians during this most difficult and challenging time of their lives. Their witness continues to teach us the Gospel message in word and deed.

As we start the new year we look back with thanksgiving at all God has accomplished and allowed us to be a part of in 2023. And we thank you for your part in both prayer and financial support.
